Re: Half cents

Thank you for the complex detail sent June 13, 1996 entitled MISSOURI CABINET HALF CENTS analyzing the technical ownership and background of the wonderful group of U.S. half cents. You asked for me to cross check the listing. Not all the records may be at hand, but here are some comments to help clarify.

If the schedule is rewritten it would be well to have the EPNNES column divided into four subsections instead of two, namely

Gift of N to EPNNES, Gift of T to EPNNES, Purchase by EPNNES, Acquired in trade by EPNNES. You may wish to further divide T entries.

My inquiries are as follows:

- 1793 C4 On Dec. 23, 1982 N gave EPNNES a condition 40 and I don't know what happened to it.
- 1794 C4b On ~~March~~ ^{April} 16, 1992 EPNNES received from Weber in trade and perhaps it is the coin shown in the T column as 1-15-1.
- 1794 C6 On September 8, 1988 EPNNES received from Superior in trade and parted with a poorer quality one in the same trade. Is it one shown in the T column.
- 1794 C7 On December 28, 1984 T gave to EPNNES this variety but where did it go? One is listed in the T column.
- 1795 C3 Given by N to EPNNES on August 26, 1977. Where did it go? One is listed in T Column.
- 1795 C6b Traded to EPNNES by McGuigan in 1987. Where did it go? One is listed in T column.
- 1804 C8 Given by T to EPNNES in 1986. Where did it go?
- 1804 C10 Given by T to EPNNES in 1986. Where did it go?
- 1804 C13 Purchased by EPNNES from Reynolds November 11, 1993 (Double struck). It is listed in T Column.

Please review your records at your convenience. There are probably transactions I have no record of. I fully realize how difficult it is to keep records of two ownerships while grading up overall quality. Your input has been amazing.
